

VOIP PHONE SYSTEMS

WHAT IS VOIP

A VoIP phone system is a system that uses an internet connection for your phone system. This technology saves you the expensive line rentals you are currently paying.

THE FUTURE NOW

SETUP HOW YOU WANT

We will setup the entire system to your exact requirement. There are an infinite amount of options available on the system. This means we can configure the system to suit your own individual needs.

MONTHLY CONTRACT

No long term contract, we only offer a rolling monthly contract starting from £8.00 a month plus VAT (Softphone) or £15.00 a month plus VAT (Handset)

TAKE IT WITH YOU..

The phone's are not restricted to your office. They will work as long as you have an internet connection. Ideal with people working from home and still presenting your main business number.
